

I am writing to voice my concern over expanding Low Power FM (LPFM) service in such a way that these stations could take priority over current FM translator service. I do not support these changes as there are many great radio stations that use FM translator service and they could be severely impacted if you allow these changes. There are two such radio networks in my current area that I listen to which could be forced off the air if LPFM is allowed priority. One is K-Love Radio which provides Contemporary Christian music and positive programming 24 hours a day. Another radio network is the Bible Broadcasting Network. Both of these networks provide Christian based programming which I feel supports the people in my community and all over the nation by providing an alternative to secular based programming. These stations help bring a positive light into the community and offer support to people in need. If these stations were displaced by LPFM it would certainly affect those who enjoy listening the great message these stations have to offer. I hope you will consider this in your decisions. Thank you.
